SUMMARY

I am a Java Full Stack Developer with strong expertise in building scalable web applications using Java, Spring Boot, Angular, and MySQL. My experience includes designing RESTful APIs, dynamic UI systems, AI integration, and database-driven applications that adhere to modern development practices. I am passionate about solving real-world problems through clean architecture and optimized backend logic

EDUCATION

Master of Computer Applications (MCA) Dr. D. Y. Patil Institute of Management & Research

09/2024 - Present Pune

Bachelor of Computer Science Matrubhoomi Mahavidyalaya

08/2019 - 08/2022 Udgir

PROJECTS

NexBuy – AI Powered E-Commerce Platform (Full Stack Web Application)

03/2026 - Present

URL

Developing an intelligent e-commerce platform with AI-assisted product discovery, image search, and smart recommendation system to improve user shopping experience

- Developed scalable REST APIs using Spring Boot enabling efficient product and order management
- Built responsive frontend components using Angular.js
- Implemented product and category management modules
- Integrated MySQL database for product and order storage
- Optimized product filtering and search functionality

Waste Management System

11/2025

https://github.com/ganesh9359/WasteManagementApp

Developed a smart waste management system that allows users to request waste pickup while enabling administrators and dispatchers to manage operations efficiently.

- User registration and login system
- Waste pickup request with image upload and live location tracking
- Admin dashboard displaying total requests and vehicle status
- Dispatcher panel for assigning vehicles to waste pickup requests
- Real-time request tracking for users
- Designed Oracle database schema and relational tables
- Implemented backend logic using Java Servlets and JDBC
- Developed dynamic dashboards using JSP
- Integrated geolocation functionality for live location capture

SKILLS

GitHub	Core Java	Java	
Spring	Spring MVC	Servlets	
JSP	SpringBoot		
Spring Microservices	Angular		
REST API Development	JavaScript		
HTML	Bootstrap	Tailwind	JPA
Maven	Postman	Apache Tomcat	
Visual Studio Code	Eclipse	CSS	
Junit			

KEY ACHIEVEMENTS

Built multiple full-stack applications using Java technologies

Developing AI-enhanced features for modern web applications
